

United Action Plan and Timeline

Defeat the Blockade in 2021!

Resolutions: This Action Plan continues to organize and mobilize our forces and allies to pass anti-sanctions, pro-normalization Resolutions in city and state elected bodies, as well Labor Councils, faith-based, and other representative and mass organizations.

- **January 20, 2021:** Local Actions on Inauguration Day will be initiated and organized by our supporters in cities across the US and Canada against the Blockade and for U.S.-Cuba Normalization. Cuba solidarity and anti-blockade activists will participate as a contingent in inauguration activities in Washington DC.
- **April 2021:** April 2021 marks the 60th Anniversary of both the launching of the Cuban Literacy Campaign and the failed mercenary attack against Cuba at the Bay of Pigs/Playa Giron, organized in Washington DC by the bipartisan US government. We project a major International Webinar to commemorate these historic events.
- **Friday, May 21:** Internationally - coordinated protest in cities around the world solidarity with the UN General Assembly vote overwhelming against the US blockade on this day.
- **May 2021:** Our broad Cuba solidarity movement has always been nurtured, inspired, and renewed by our visits to Cuba. Our Plan of Action plan for 2021 includes supporting and promoting upcoming brigades including:

- o Che Guevara Brigade, a project of the Canadian Network on Cuba:
www.canadiannetworkoncuba.ca/brigade
- o IFCO/Pastors for Peace: ifconews.org
- o Venceremos Brigade: <https://vb4cuba.com>
- o and the May Day Brigade (**more information coming soon!**)

Our goal is the organization of internationally coordinated actions on May 21, 2021, the day of the UN vote. Working with ICAP and Cuba solidarity groups and coalitions in every corner of the globe to join we want to promote active protests at the United Nations in New York City, in front of the White House in Washington, DC, and in cities across the US, Canada, and internationally. We will also continue to organize further International Webinars up to the May 21, 2021 vote at the United Nations. In the months ahead we will explore the possibilities of a physical-hybrid Conference on the May 21-23 weekend if health and safety conditions permit.

For more information about the above actions follow the
